TLDR: Strategic operator and cross-functional leader with 10+ years of experience launching high-impact growth initiatives at DoorDash and Apple. Proven success building 0→1 programs, optimizing acquisition and retention levers, and aligning exec-level stakeholders to drive global operations.

Experience

Sr. Manager, Strategy & Operations, Dasher Growth — DoorDash (July 2022 – Present)

- Responsible for operational management of New Dashers, a critical lever of DoorDash's Supply operations to enable speed & quality on the platform. Includes operational tracking, \$XXM P&L planning & management, decision making, and acquisition lever execution: enabling our fastest & highest quality growth quarter in Q1 2025.
- Developed new levers to improve Dasher retention, resulting in \$XXM saved in Dasher Advertising costs (15%). Led XFN team by creating a 0-1 strategy to better retain Dashers by identifying the problems, driving testing and strategy iterations, and launching the experience in app.
- Led risk management initiative to improve Dasher Authenticity, removing >XXXk low-quality accounts via onboarding controls and deactivations while balancing cost & quality outcomes to achieve Authenticity goals. Secured \$XXM in P&L investments to enable this program by aligning cross-functional teams and C-level stakeholders with execution plan.

Business Strategy Manager — Apple, Inc. (Oct. 2019 – July 2022)

- Drove Engineering, IT, and Procurement stakeholders to align on business processes and application requirements for forecasting silicon wafer demand amid a global chip shortage.
 - Managed cross-functional strategy identification & implementation in response to the US-China trade war, providing C-suite and BoD-level transparency into supply chain diversification strategies, leading to data-driven decisions and tariff mitigation.
 - Increased U.S. COVID-19 test kit production capacity by securing executive buy-in and managing budget, procurement, and factory operations for Apple's \$XXM investment in Copan Diagnostics, adding >XM weekly production capacity.
 - Negotiated master-level agreements and developed relationships with new manufacturing partners, enabling Apple's supply chain diversification strategy and delivering >\$XXM in value
-

Education

Iowa State University — Ames, Iowa

B.S. Supply Chain Management (May 2015), NCAA Division I Student-Athlete, Track & Field

Leadership

Chair, Diversity & Inclusion Community Outreach Committee — Apple, Inc. (April 2020 – July 2022)
